Detail about program development and delivery needed in Final QNPR

We would like to draw your attention to the important role that various sections of the TAACCCT Quarterly Narrative Performance Report (QNPR) plays in our reporting—particularly Section A, “Quarterly Summary for Grant Activities,” “Section D, “Timeline for Grant Activities and Deliverables,” and Section G, “Best Practices, Promising New Strategies, and Success Stories.” We read these sections very carefully and are currently analyzing the Round 2 responses for an upcoming report. Therefore, we ask that you provide as much detail as possible in the narrative portions of these sections when you complete your Final QNPR. We ask this now, because we know that some grantees have staff transitions around March 31, and we want to be sure that your grant is described thoroughly and accurately in the Final QNPR. If that is the case, you may wish to leave notes for the individual doing the Final QNPR, where appropriate. Alternatively, please feel free to leave as much detail as possible regarding your program development and delivery in the March 31 report, but be sure to reference that fact in the final QNPR.
